National Rural Infrastructure Development Agency, the technical arm of the Ministry of Rural Development for PMGSY, has been contributing effectively in the task of nation building by helping in the construction of rural roads under the Pradhan Mantri Gram Sadak Yojana since the last 2 decades.

In recent years, India has taken enormous strides towards becoming an ICT superpower in the world. Honorable Prime Minister of India has laid emphasis on e-governance to realize his vision of “Digital India”. National Rural Infrastructure Agency (NRIDA) with a reputation of being a technical and professional organization has come up with a revamped and modern website for meeting the new challenges of the digital delivery of information and services. The website is both citizen-centric as well as visitor friendly and conforms to the Guidelines for Government of India Websites.

It is my pleasure to extend best wishes to the officers and staff of NRIDA for this endeavor. I am certain that this new and updated website would be useful for the casual visitors as well as the officials involved in the PMGSY projects.

(Sadhvi Niranjana Jyoti)
