3	Cost (Rs. in Lacs)	Rs. 213.02 Lakhs
4	Overview of the Project	
	Introduction to Work	The Bridge is constructed on Guguwa to Bhitri road near village Bhitri constructed under PMGSY
	Need for work	For movement of villagers of village bhitri and adjoining areas, through out the year in all weather condition, the construction of Bridge was necessary as old FCW structure on dungrai river often got flooded during rainy season.
	Challenges	(i) Due to continuous water flow in dungrai river, it was difficult to start the work. Only after diversion of river water, the pile foundations could be constructed. (ii) Approximately 15m length In one abutment of the Bridge was in private land. After several persuasions and efforts private land owner allowed the construction of abutment.
5	Implementation Process	
	How the work was implemented	After diverting river water work of foundation was started end then work progressed simultaneously.
	Implementing Agency	M.P. Rural Road Development Authority PIU Tikamgarh. Contractor - M/s Ram Raja construction company Prithvipur
	Outstanding contribution If any.	
6	Impact	
	What are the benefits of the project	The construction of Bridge has provided all weather transportation facility to villagers of Bhitri and Baghat,

S No	Particulars	Detailed Description
		<p>kuchikarguwa, Putrikhera and many adjoining villages. Before construction of this Bridge road near village Bhitri was often obstructed due to flood in river dungrai and this blocked general movement of villagers. Even in emergencies or even in Critical medical urgency it was not possible to cross the river. Now after construction of this Bridge villagers are benefited in all movements either for health issue or for business work or any other personal work in all weather condition.</p>
	Voice from the field	<p>The villagers and beneficiaries of adjoining villages have shown their pleasure and thanks to department in a Gram Sabha meeting for facilitating them by constructing Bridge as it has allowed them in moving in emergency or in Medical emergency or for their personal work throughout the year in all weather condition.</p>
